interested :)

What Do We Do?

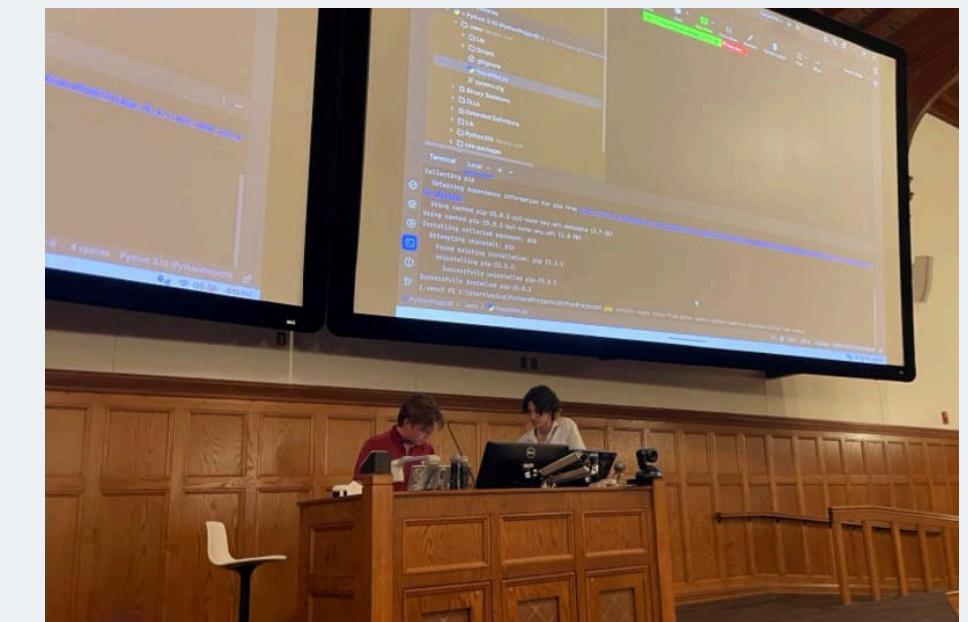

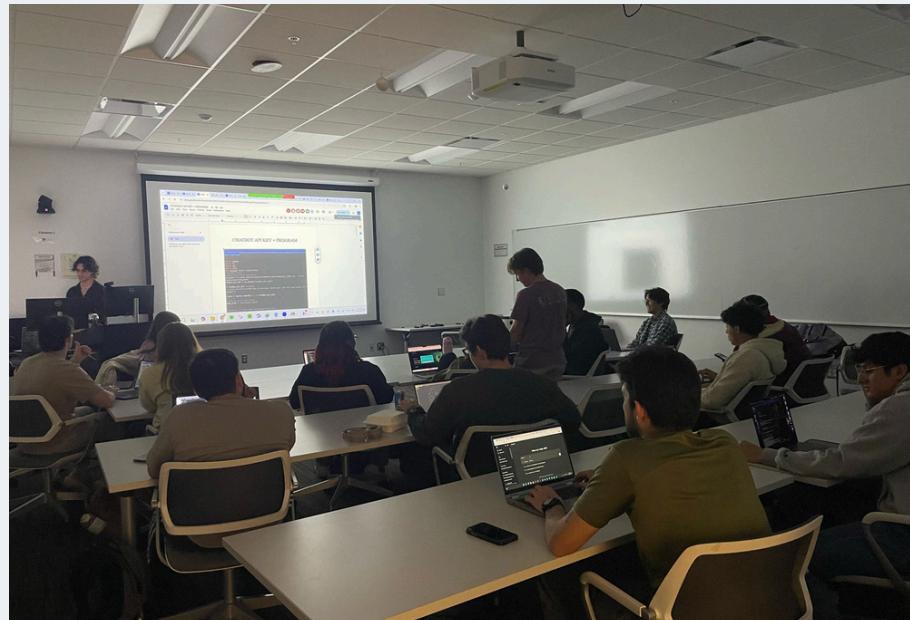

Nobody knows what ‘AI’ will look like in 5 years.

Besides, what even counts as AI?

ThinkAI is a space for students of any background to learn, experiment, and create

Workshops & Speaker Events

Designed for all levels and all majors – beginner to advanced

Past workshops: LinkedIn, Photoshop, Neural Nets, Marketing,
Custom Chatbots, OpenAI API, Web Dev

Development Projects

For members who want to build + experiment further

- Example: Michael Zuazo (facial recognition + voice bot)
- Support with funding + initial API tokens (OpenAI, ElevenLabs, more available)
- If interested please reach out!

Looking ahead:

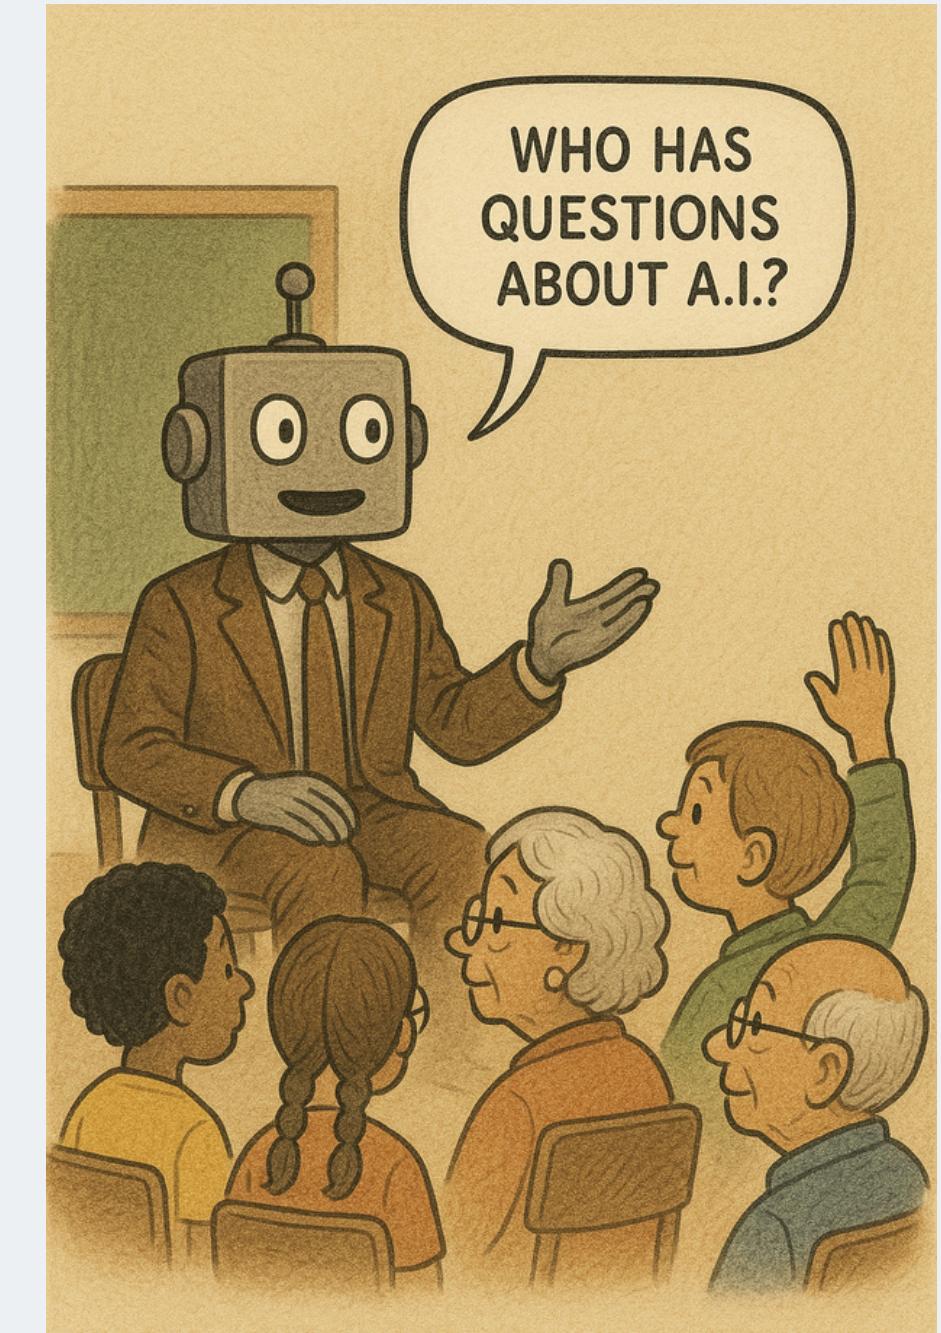

- Competitions
- Member-led projects
- Showcase events

Outreach

Goal: Bring AI to people who might not otherwise get to experience it

- AI Literacy Workshops and Resources for K-12 schools
- Community Collaborations with local libraries & senior centers

For members looking to gain experience in outreach and leadership

What to Expect For Fall 2025

Free membership + Resources

Funding for events & builds

Biweekly/Weekly GBMs

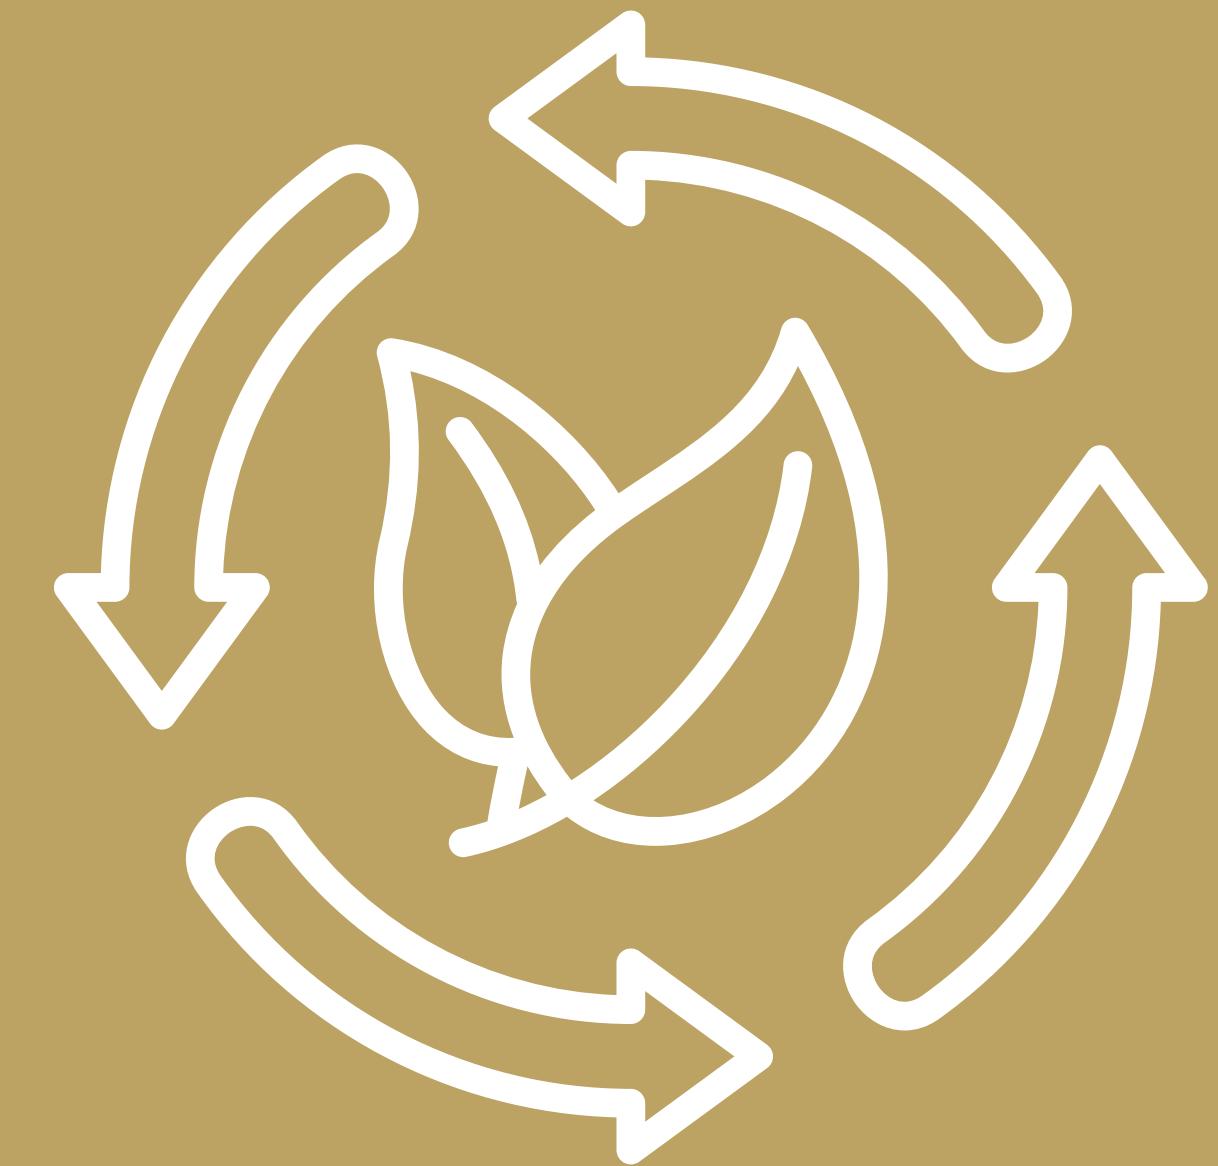

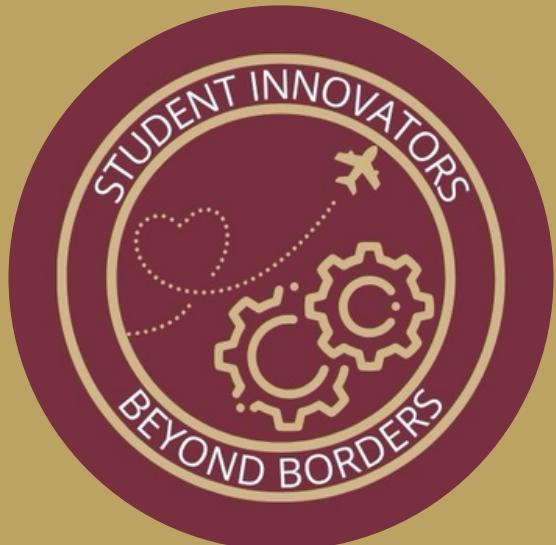

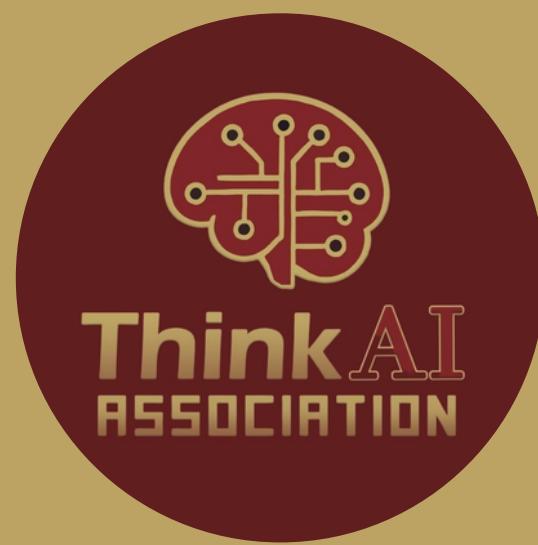

Looking Ahead:
More collabs, More events, More
outreach opportunities

Next Week!

Sustainability in AI GBM

6:15pm | Thursday, 2/5 | LSB 214

ThinkAI Association &
Student Innovators Beyond Borders (SIBB)
